

UTAH Series

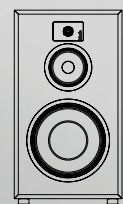

Inspired by the history.
Crafted with precision.

Find out more

- **A new level of treble clarity**
Brand-new 28mm aluminum-magnesium tweeter in precision waveguide with phase corrector.
- **Unprecedented midrange dynamics**
Mighty midrange driver with Curv cone and unique 110-mm ferrite underhung motor.
- **Extremely stable yet beautiful enclosure**
Bass-reflex enclosure with 3D matrix reinforcements with inner and floor shock absorbers.
- **Bi-wiring crossover with premium components**
Enjoy your music with the ultimate transparency and excellent frequency response harmony.
- **We've just never had bass like this before**
Massive 12" woofer with newly developed Tri-Wave surround and PP cone with exceptional rigidity.

UTAH 8

system		3-way
suggested amplifier	W	30-240
impedance	Ohm	4-8
frequency response	Hz	30-30000
sensitivity (2.83 V / 1 m)	dB	93
high-frequency transducer	mm	28
midrange transducer	mm	175
low-midrange transducers	mm	-
low-frequency transducer	mm	307
crossover frequency	Hz	350 / 2200
dimensions (height × width × depth)	mm	732×400×375
weight (1 piece)	kg	26
price (22% VAT incl.)	EUR	1649 / pair
